

CHEM 204 Midterm Practice Questions

A reference packet for reviewing reaction kinetics and equilibrium. This document does not announce an exam date, deadline, or required event.

Reference numbers

Course number: CHEM 204

Example student ID: 20240188

Workbook price: \$20.18

See page 2018 in the digital archive index.

Questions

1. Compare first-order and second-order reaction rates.
2. Explain how temperature affects an equilibrium constant.
